

Design Notes

Signs are 24 in x 18 in or 24 in x 6 in

Approx 1/4 in (18 pt) white border around sign and between each panel

Matches MUTCD sign dimensions

Colors that best match existing signs: GREEN is #0E6848, BROWN is #603918

- Fonts used are Avenir Next Demi Bold and Medium, BIKES font lowercase R for the bike with milk crate icon
- The free Roadgeek font or other condensed highway-style font can be used instead to match the BIKE ROUTE typeface
- If using the bike with milk crate icon, default the bike direction so it's facing RIGHT and flip it to the left when used with a left-facing arrow
- Destination name type should be at least 2" high (180 pt)

Exporting:

Export as a 300 dpi JPG with RGB color profile for printing. This give the best color matching.

Printing:

Best to order when one of these companies has a big sale since their prices seem to fluctuate dramatically...

- 55printing.com has best price for 24x18 (coroplast yard signs) for the 3-panel destination sign
- vistaprint.com can print 24x6 (coroplast yard signs) for a single destination sign

For smaller signs, coroplast can be cut with a box cutter or sharp scissors

Installation:

1. Hold the sign up on the pole to center the sign
2. Poke a hole into the sign from the back through the sign post hole nearest the bottom (use an awl or other pointy thing)
3. Take the sign down and make the hole big enough for a zip tie
4. Apply Gorilla Glue double-sided tape (3 pieces up center of sign back in line with the hole)
5. Stick the sign to the pole
6. Run a zip tie through the hole you made on the bottom of the sign. Trim off any excess zip tie with scissors.
